

# Vacuum Loader Prop Valve

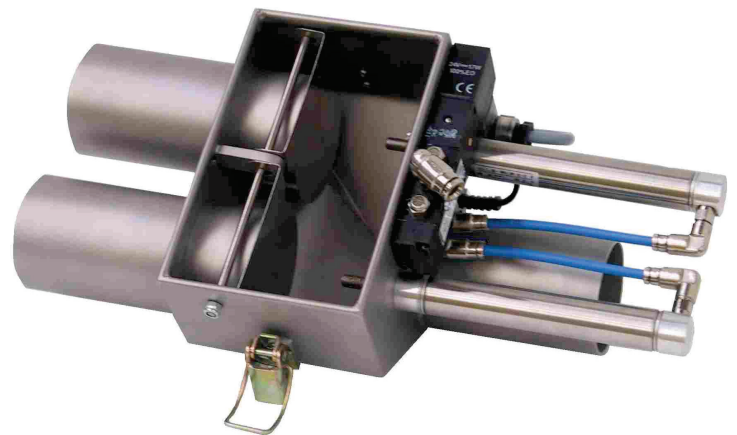

# Weighbatch

Material Handling & Gravimetric Control

Proportional Valve for  
Mixing of 2 Materials

Ideal for Mixing  
Regrind or Production  
Waste

Retrofit-able to any  
Vacuum Loader

## Features:

- Self contained vacuum loader powered by 1 kW single phase motor
- Dynamic and static parts in contact with material are stainless steel
- Fabric filter with automatic back flush cleaning after every cycle for maximum filter life
- Automatic detection and alarm indication if full load not delivered to processing machine giving early warning of material supply issue
- Models available for up to 250 kg/hr
- Slimline design facilitates multiple loaders in close proximity eg. on MiniBlend
- Electrical supply 230 V 50 Hz 1 ph, pneumatic air 6 bar filtered and dry
